

Disposal information for FEINMETALL Products / Packaging

FEINMETALL is committed to environmental protection. That means an environment-friendly use of resources and the appropriate waste disposal of products and packaging. We particularly pay attention that Feinmetall products don't belong to dangerous disposal and that they can be recycled.

The following chart provides a summary for disposal opportunities of several product groups and packaging. The country-specific legislation should be considered.

Materials	Composition	Disposal System
Metals	Packaging as well as products with a predominantly metal part and no / low electronic part	Metal-Recycling
Electronic Products	Products with a predominantly electronic part	Electronic Equipment-Recycling
Synthetic Materials	Packaging as well as products with a predominantly synthetic part and no / low electronic part	Synthetics-Recycling
Paper Packaging	Paper/ board packaging	Waste Paper Disposal

If a customer sends back products or packaging material FEINMETALL will dispose both properly.
